Historical Note ii

A. Admissions

1. Sentence length 1
2. Crime category 2
3. County of conviction 3
4. Race and sex 7
5. Age at admission 8
6. Education grade 9
7. Marital status 10
8. Admitting location 11

B. Separations

1. Sentence length 14
2. Crime category 15
3. County of conviction 16
4. Race and sex 20
5. Age at separation 21
6. Education grade 22
7. Marital status 23
8. Separation location 24

Page

C. Population resident at period end - inmate count

1. Sentence length 27
2. County of conviction 29
3. Race and sex 37
4. Current age 39
5. Education grade 41
6. Marital status 43

D. Population resident at period end - percentages

1. Sentence length 45
2. Race and sex 47
3. Current age 49
4. Education grade 51
5. Marital status 53

E. Work Release Terminations

1. Outcome by time on work release 55
2. Outcome by how placed 56

F. Rule violations 57

G. Escapes and Captures
1. Crime Category 69
2. Unit escapes from 71

Appendix: Definition of terms 75

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category "in Resident" Tables	**Corresponding Categories in "Admission" and "Separation" Tables**
Homicide	Murder 1st degree,murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault,and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

(continued)

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined in the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information has not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry".

If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

Appendix: Definition of terms	76

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category "in Resident" Tables	**Corresponding Categories in "Admission" and "Separation" Tables**
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

(continued)

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined in the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information has not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry".

If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

1. Crime Category 69
2. Unit escapes from 70
Appendix: Definition of terms 74

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category "in Resident" Tables	**Corresponding Categories in "Admission" and "Separation" Tables**
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

(continued)

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined in the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information has not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry".

If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.

2. Outcome by how placed 56

F. Rule violations 57

G. Escapes and Captures
1. Crime Category 69
2. Unit escapes from 71

Appendix: Definition of terms 76

HISTORICAL NOTE

Beginning with the 1986 annual issue, two additional Sections appear in the Abstract. The first of these consists of two tables of work release terminations. The second section is a table of rule violations.

Also beginning with the 1986 annual issue, data on inmates with multiple crimes are tabulated differently. For each such inmate, the crime carrying the longest sentence is the one chosen to characterize that inmate. The crime itself, its categorization as a felony or misdemeanor, and the county of conviction for that crime are used then to build the corresponding tables.

Appendix: Definition of Terms

"Sentence length" is the total consecutive sentence imposed by the court as of the date of the computer search which creates data for the Abstract. Each sentence length category (e.g. 1 to 2 years) includes sentences exactly matching the upper limit (2 years), but sentences equal to the lower limit (1 year) belong to the smaller category. The exception to this statement is the category 10 years to life: life sentences belong to the category life/death.

"Crime" (beginning with the 1986 Annual issue) is the offense possessing the longest sentence length, in the case of multiple crimes. Determination of felon/misdemeanant and county of conviction is also based on that same crime.

"Age" is determined at the time of admission or separation, respectively, for those tables. For the resident tables it is computed as of the period ending date for the report.

For the resident population tables the crime categories have been consolidated somewhat to conserve space.

Crime Category "in Resident" Tables	**Corresponding Categories in "Admission" and "Separation" Tables**
Homicide	Murder 1st degree, murder 2nd degree, manslaughter
Rape and sexual assault	Rape, sexual assault, and sex crimes miscellaneous
Other assaultive	Kidnapping and abduction, assault
Other public order	Abandonment and non-support, habitual drunk, others
Burglary, B&E	Burglary, breaking and entering
Larceny and auto theft	Larceny, auto theft
Forg., Checks, fraud, other property	Forgery, worthless checks, fraud, burnings, trespass

"Admitting location" is the prison unit to which the inmate was admitted originally. Thus, for a capture, it refers to his original reception center, not the first

(continued)

(Appendix continued)

unit he was taken to upon return to the Department of Correction.

"Separation location" is the prison unit where he was housed most recently as determined in the computer run. In the following circumstances it is not actually the unit from which he was separated: if he was revoked from a parole or captured after an escape, the record of his actual separation location will have been disturbed and the information replaced by his new location.

When "not reported" occurs in a table such as sentence length or crime, it counts inmates for which the information has not been obtained by the time of the computer run. Some inmates, for example, will become unavailable for intake processing because of a trial on additional charges.

Tables A1-A8: Admissions

"New admissions" includes unsentenced inmates (presentence diagnostic cases and safekeepers) and prisoners newly committed by the court directly to prison (including a "split sentence" of prison and probation). If the prisoner was already under parole supervision at the time he reappears in prison, he is not counted as a "new admission" for his reappearance (presumably for a parole revocation), even if he is being given a new sentence. Instead, he will be counted as a "re-entry".

If a prisoner is released from prison upon successful appeal of his conviction and is again sentenced to prison upon reconviction, he will appear twice as a new admission for the same crime(s). The same is true for PSD's and safekeepers if they return to prison after sentencing.

Tables B1-B8: Separations

"Discharge" includes unsentenced inmates and prisoners who complete all of their sentence. A person who is paroled, revoked and then completes his sentence will appear twice on these tables. He will be counted first under parole releases and then as having been discharged.

"Parole" includes a special kind of parole called conditional release, which is granted mainly to those designated by the court as committed youthful offenders. It also includes those re-released as the result of the rescinding of a temporary parole revocation. Other categories of parole include those under the Fair Sentencing Act (even though these are mandatory) and special one-third paroles, even though these are not supervised by parole officers.

"Other separations" includes deaths, escapes, and court-ordered releases.
